REV TECH

The West is more than a place. It's a pioneering mindset.

Expertise

✓ Software Development & Implementation

✓ Project & Program Management

✓ Managed Services

✓ Strategic Initiatives

Meet REVTech

We believe growing relationships with our team, partners, and clients results in extraordinary impact. We are real people inspired by what we learn from each other. We are more than just a tech company; we are your trusted advisors.

Private sector solutions.

Our private sector clients range from Fortune 500 to start-ups. Ingrained in the REV DNA is the ability to adapt to complexity and continual change because business moves fast and we are dedicated to working through process, transformation, and change with you. REV continuously monitors and updates our Cybersecurity practices to adapt to industry standards. We have longstanding partnerships with the world's leading technology companies; Microsoft, AWS, ServiceNow, Salesforce, Google Cloud, Cisco, Snowflake, Tableau, IBM, and Splunk to name just a few.

Public sector solutions.

We serve Federal, State, and Local Agencies in the public sector and serve non-profit organizations of various sizes. Discovering the right solution using modern practices, identifying efficiencies, data collection and success metrics, we bridge critical gaps and identify strategic opportunities.

What's your endgame?

The success of your organization depends on responding, not reacting.

Effectiveness   **Adaptability**   **Trust**

Pioneering Mindset   **Perseverance**   **Impact**

aws

Cloud services to assist with critical infrastructure and better data-driven decision making.

REV is a cloud agnostic service integrator and consulting business dedicated to implementing the right emerging technology and solution for our enterprise clients. REV's pedigree in cloud computing is extensive. In 2017, REV partnered with Amazon Web Services (AWS) to implement a robotic process automation (RPA) solution for the U.S. Department of Veterans Affairs. [Scan QR code for more]

Microsoft

Solving homelessness with Microsoft.

REV formed a strategic "365" relationship with Microsoft at the time of our founding in 2011. In 2018, REV partnered with Microsoft to create the first-of-its-kind Homelessness Encampment Workflow Automation Application to assist the City of Seattle with the management and reporting of over 10,000 chronically unsheltered people. REV and Microsoft coined the application, powered by the Microsoft Power Platform, the "Navigation App", also known as REV App. [Scan QR code for more]

T Mobile

Leveraging Big Data to expand the fastest growing 5G network.

REV and our team of seasoned technologists have a deep understanding of the complexities brought on by a digital 21st century world: processing, managing, and protecting large amounts of data in a meaningful way. Since 2018, REV has teamed with one of the world's largest wireless network providers, T-Mobile, to expand their U.S. 5G network and meet the intrinsic challenges of such a feat head-on.
